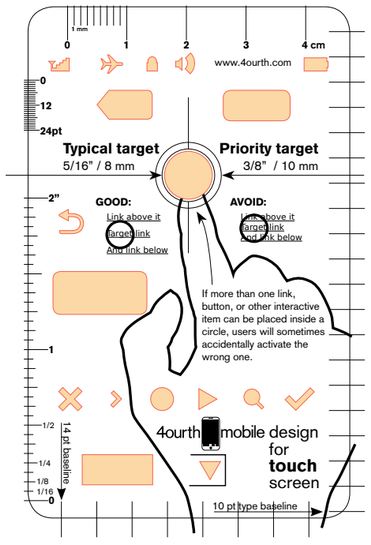
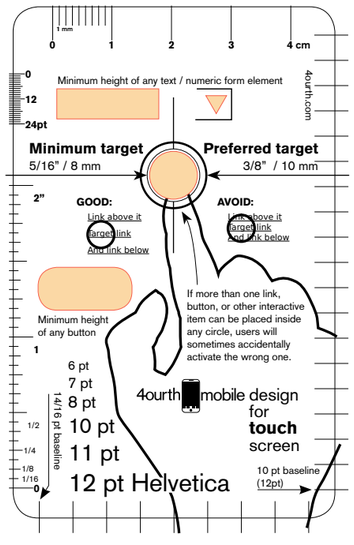
4ourth Mobile Touch Template (3-3/8” x 2-1/8”)

16 FEB 2012
As laser cut for prototypes.



20 JUN 2012
Revisions:

- Baselines centered, to allow flipping template and making straight lines w/o right-angle tool.
- Baselines incorrectly sized! Now correct and labeled.
- Removed OS-specific icons.
- Added type scale.
- Increased some line weights.
- Renamed targets to be more clear.
- Labeled remaining items.
- Moved stuff around.
- Moved all rulers off radiuses



iOS Back and header buttons are common, but too small and OS-specific. Find a place for it, or leave it out?

Would like to put a bigger type scale in there, but it is big!
